

GLOBAL INSTITUTE FOR WATER, ENVIRONMENT AND HEALTH

OUR STRATEGIC GOALS

- 1** Strengthening our involvement in the development process, especially with regard to water in the post-2015 agenda
- 2** Addressing the needs of different countries, especially unstable and post-conflict states
- 3** Increasing focus on water governance, good practices and stakeholder engagement
- 4** Involving more youth and women in science and technology
- 5** Conducting research and developing training and educational materials
- 6** Supporting technology transfer, cooperation, hydro diplomacy and trans-boundary resource management
- 7** Adopting clear and applicable monitoring indicators on quality solutions for water security, particularly in water scarce regions

FLAGSHIP PROJECT 2015

Water Governance & Integrated Water Resources Management In Water Scarce Regions

World Water Business Partnership Goals

Promote wise and effective solutions for global water issues

Facilitate cooperation among partnership members to vitalize water business

Share and exchange water technologies and experiences
